VORTEX

Is an Automatic Cold Vapor Micro Fog System that will automatically deodorize and sanitize any area where unwanted odors and germs are present.

VORTEX

Is very economical using only 1.5 ounces of chemical per 10,000 cubic foot treatment / 15 minute run time.

VORTEX

utilizes a digital timing system that will automatically activate every night and disperse a *Dry Nano Sized Micro Fog* of EPA Registered Chemical of your choice for germ & odor control. When you return to your establishment in the morning you will enter into an odor and germ free environment every day.

VORTEX *will automatically deodorize & sanitize your entire facility every night.*

Contact you local Restoration Equipment Retailer for more information.

VORTEX

Automatic Evaporative Dry Micro-Mist Sanitation System
